# DEGNER SADDLE BAG FEATURES!!

## The charms of the Degner's saddle bags

Thick leather more than 4mm that can't be sewn with a normal leather sewing machine. Our saddle bags are made of oil leather and chrome leather, as well as durable and rich textured vegetable tanned leather for long years of use. Vegetable leathers have long been used for durable harnesses such as cowboy saddles and chaps. The saddle bag, which was a necessity for long-distance riders, has been handed down into a motorcycle culture. The more you use it, the more you will enjoy the aging of leather and become one of your treasures.

**A**

### One touch release

All saddle bags are equipped with our own fittings that can be opened and closed with one-touch.

**B**

**B**

### Belt

Equipped with tough leather straps to mount the bag on a motorcycle.

\* Refer to the right for how to mount

**A**

**C**

**E**

**D**

**E**

### Hanging parts

As the hanging parts have been updated, the saddle bags can be mounted on much wider range of motorcycles.

\*Some bags are equipped with handles.

**C**

### PE board & Pocket

The inside of the bag is equipped a pocket for a inspection certificate. By putting a polyethylene board inside, it keep the original shape and can use it for long.

\* Some products are not equipped to take advantage of the characteristics of the bag.

### Double D-ring

The support rings are attached on the back side. It reduces the flapping. ※ Please take the allowance between bags and the motorcycle.

**D**

## Sheltering from rain

The rain cover is the standard equipment for Degner's saddle bag.

Even if saddle bags are coated with leather wax, there is a limit to water repellency against running rain and mud splashing, and rain is a major cause of damages. A special rain cover is equipped to the saddle bags. As it is made for each size, it fits well with pulling the adjuster cord and is compact when folded. The bottom has a drain hole to discharge water inside the cover. Please use the rain cover to protect from the damages for long years of use.

## HOW TO SET

### Easy to install! Degner's Saddle bags

To mount the bag, through the leather straps on the fender rail. (It may be necessary to loosen the bolts depending on the model year)

Using the optional mounting bracket, SBH-1 (see page. 43) for easier mounting / detachment. A convenient item that allows you to quickly take your saddle bag off when you leave from your motorcycle.

An example of the easy attachment and detachment. By using KIJIMA's slide rail on the side (see page 45), it became easier to deal with the bags.

Check the video →

### Rain Covers Details

Just pulling the adjuster cord to fit.

The polyurethane coat prevents rain from hitting the bag directly.

\*The bottom has a drain hole to discharge water inside the cover.\*

This card is sign!

Easy to get compact!

 <b>One-touch buckle</b> Degner's one-touch buckle for quick release opening and closing.	 <b>Avoiding blinkers</b> Eliminating the interference with blinkers for easier mounting.	 <b>Hanging the brackets</b> Our updated hanging brackets get the bags mount with one- touch.

### - To use the touring bag safely - Handling precautions

The products listed in this catalog are mostly universal designed. In particular, if the bags are not mounted properly, it is extremely dangerous because it interfere your riding. Please keep the following points in your mind when mounting the products and use them safely.

Each products have their weight restrictions and usage instructions. Please be sure to refer to that for specific precautions. The following notes are excerpts from important ones.

-The products listed in this catalog are universal products. Please do make sure that you check their fitting carefully. We, Degner will not take any responsibility for any damage or loss caused by mis-fitting.

-Please ride safely as exceeding legal speed may cause the dropping out the bag(s) due to the wind pressure and the unstable handling.

-The products and their attachments parts might cause scratches or damages due to the vibration and/or frictions. We recommend to use protective pads on the tank and fenders of your motorcycle where the products make contact with.

-The products might be broken if excessive load is given although we pay great attention to the durability of the materials, stitching and details. Also rough handling may cause damages on your motorcycle.

-Please do not force to pull the sliders on the zips. It may cause a breakage and cause injuries of pinching skins or damages of clothing.

-Please do not get the products make contact with hot surfaces such as engines, mufflers etc. They may be melted, burned or pierced with holes. Please also pay extra cares for the loose straps and the movement of bags, it is very dangerous if they touch with moving parts.

-Please install the products where the most stable position without any disturbing of moving parts. If the products are mounted on unstable position, it may affect riding. If you are doubt with it, please stop your motorcycle immediately and re-set up the product. It is very dangerous if products are mounted incorrectly or on unstable position. It may cause dropping out the product.

• Belts, suction cups and bolts may become loose due to running or vibration. Please always pay attention to the mountings and make sure that the bag(s) is securely fixed to your motorcycle.

• If you find any problem with the product, please don't keep using it. If you ignore the condition and any loss or damage happen, we will not be responsible for any matter.

-Please note products specifications and prices are subject to change without notice.

## FITTING GALLERY

Except for some products, most of them are universal products. Please check the fitting of the bag on your motorcycle and fix it firmly (Please make sure it is stable during riding). Installation on your motorcycle is your responsibility.

When installing the bag, we recommend to use the mounting bracket. By fixing the attachment points, not only is it easy to install, but also the bag can be stabilized when traveling. It is not only easy to install but also the bag can be stabilized firmly.

The pictures we show on this catalog are examples of the installations. The shape of the mounting part differs depending on the models. It is very dangerous if the bag is installed unstably as the bag may fall off or be lifted by wind pressure.

## Leather Saddle Bag with Hangstay for Sportster

## One-touch installation with our mounting bracket. Saddle bags for Sportsters

With using the hanging parts of back side of the saddle bag, just one step is only needed to attach and detach the bag.

Main body side bracket	
Main body mounting bracket	1
Spacer (long and short) each	1
5 / 16-18 × 2-1 / 2 inch hexagon bolt	2
Φ8 flat washer	2
R pin	1
Bag side bracket	
Hanging bracket	1
M6×15 flange hexagon bolt	2
Fixing pin	1
M6 lock Nut	2
Φ6 flat washer	2
Φ6 flat washer (large)	1
M6 × 10 flange hexagon bolt	1
Rubber plate	2

**The hanging parts can be used for right and left with Adjusting the mounting position!**

You can change the right or left side by adjusting the hole position for the bolts.

### How to attach the saddle bag with the hanging bracket

Remove the bolts on the fender rail and attach the mounting bracket. \* Please refer to the manual that comes with the product " how to attach the mounting parts".

Hang the bracket on the motorcycle side mounting bracket while adjusting the fixing pin on the bag side to the hole position on the bottom of the motorcycle side mounting parts.

Insert the R pin firmly into the fixing pin. Check regularly to prevent the bag from flapping or coming off.

Compatible with 2004-2020 models (as of July 2020)  
 \* Except for XL1200CX, XR1200 and customized motorcycles

## Fabulous texture as well as leather

A saddle bag made by using the skills and techniques for leather saddle bags.  
A luxurious feeling like genuine leather colors your motorcycle.

XL883N × DSB-1

XL883N

The interference between with the saddle bag and the blinker is eliminated! Installation is possible without relocating the blinkers.

The bag board on the back side is provided as the standard equipment to reduce the damages caused by interference with the motorcycle.

Degner's one-touch fittings were developed for our leather saddle bags originally .Easy to open and Close.

By making holes in the back side, the mounting position is risen and more stable. The bottom is angled to increase the ground clearance when the motorcycle is leaned.

This is a low height model which is suitable for a high-level exhaust. Can be paired with the DSB-5.

**DSB-5** Synthetic leather Saddle Bag ¥ 22,000

Size : H39 × W36 × D22(cm) Capacity : 15ℓ

## Nylon American Saddle Bag

# HD-XL1200X × NB-156 FITTING GALLERY

Except for some products, most of them are universal products. Please check the fitting of the bag on your motorcycle and fix it firmly (Please make sure it is stable during riding). Installation on your motorcycle is your responsibility.

When installing the bag, we recommend to use the mounting bracket. By fixing the attachment points, not only is it easy to install, but also the bag can be stabilized when traveling. It is not only easy to install but also the bag can be stabilized firmly.

The pictures we show on this catalog are examples of the installations. The shape of the mounting part differs depending on the models. It is very dangerous if the bag is installed unstably as the bag may fall off or be lifted by wind pressure.

**W-104** Leather sub pocket bag **¥ 5,800**

Size : H22×W17.5×D2(cm)

Material : Cowhide

Color : Black, Brown, Khaki, Beige

Chose soft cow leather to give a fit around the waist. A leather sub-pocket bag that can store all things

Just passing the belt through the belt loop and fixing it with the attached leg strap! The bag is stable even when riding a motorcycle. Because the metal fittings are not exposed, you don't have to worry about damaging the tank even if you use the knee grip.

Just attach the belt loop and fits perfectly on your waist. The more you use this oil leather, you can enjoy aging.

## HONDA-CBR400R × NB-127 FITTING GALLERY

Except for some products, most of them are universal products. Please check the fitting of the bag on your motorcycle and fix it firmly (Please make sure it is stable during riding). Installation on your motorcycle is your responsibility.

The pictures we show on this catalog are examples of the installations. The shape of the mounting part differs depending on the models. It is very dangerous if the bag is installed unstably as the bag may fall off or be lifted by wind pressure.

# KAWASAKI-Ninja1000 × NB-36 FITTING GALLERY

Except for some products, most of them are universal products. Please check the fitting of the bag on your motorcycle and fix it firmly (Please make sure it is stable during riding). Installation on your motorcycle is your responsibility.

The pictures we show on this catalog are examples of the installations. The shape of the mounting part differs depending on the models. It is very dangerous if the bag is installed unstably as the bag may fall off or be lifted by wind pressure.
