Glimpses of shimmering brocade express Japanese elegance.

Item : ●Blue: Summer ●Orange: Winter ●Gray: All-Season

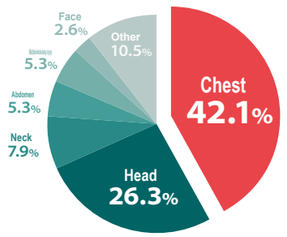

All prices shown include Japanese consumption tax.

Why Chest Protection Matters

Chest injuries account for fatal wounds in over 40% of motorcycle fatalities.

Main injury site in motorcycle fatalities, 2024 (%)

The chest contains vital organs such as the heart and lungs; a hard impact can cause severe injury.
Wearing a chest protector helps reduce impact damage from contact with the motorcycle or road in a fall or collision.

Chest protectors come in split left/right designs and one-piece designs.
A one-piece design protects a broad area around the heart and is less likely to shift away from the intended area.

Protectors help reduce injury; they do not prevent every accident or injury.
Observe traffic rules and ride safely to enjoy a rewarding motorcycling life.

Source: Tokyo Metropolitan Police website, Survey of Helmet and Chest Protector Use Among Motorcyclists (updated September 3, 2025).

Bamboo Air-Through Protectors

Soft protectors made with bamboo-fiber material are light, durable and resistant to cracking,

will an environmentally conscious material.

Thin and flexible, they follow the body closely. A honeycomb structure maintains strength while allowing ventilation.

Certified to CE Level 2. The chest protectors are also recognized as recommended protectors by the Japan Motorcycle Accessories Association (JMCA).

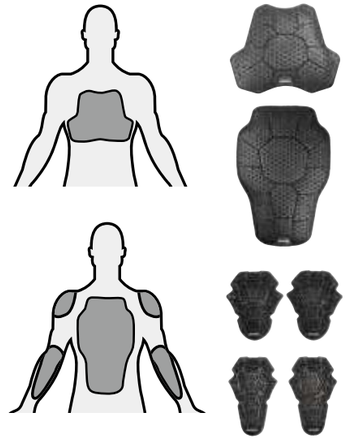

A broad elastic waistband provides support, with an internal gripper to reduce slipping. Stretch fabric holds the protectors securely over the intended areas.

PS-20 ¥19,800

Inner fabric: Nylon / Polyurethane / Polyester

Protectors: TPE / Bamboo fibers

Protected areas: Shoulders, elbows, back, chest

cm	Chest	Hem	Sleeve	Length
S	82	78	69	62
M	87	83	71	64
L	92	88	73	66
XL	97	93	75	68
2XL	102	98	77	70

Finished garment measurements. For raglan sleeves, sleeve length is measured from the collar opening to the cuff.

A broad elastic waistband provides support. Grippers inside the waistband and hems help prevent slipping and riding up. Stretch fabric holds the protectors over the areas they are designed to cover.

PS-21 ¥13,200

Inner fabric: Nylon / Polyurethane / Polyester

Hip / knee protectors: TPE / Bamboo fibers

Tailbone protector: Polyurethane

Protected areas: Hips, knees, tailbone

The tailbone protector is not CE-certified.

40 years of leather repairs and care and customization

DR

Repair&Custom Factory

Experienced staff at our Kyoto workshop repair leather goods of any brand!

Founded in 1987, DEGNER began with the repair of a racing suit and the creation of made-to-measure racing suits. Our belief that leather should be repaired and kept in use lives on in today's range of motorcycle side bags, gloves, jackets, pants, wallets and more. We remain committed to helping you enjoy your leather goods for years to come.

See repair & customization examples here.
